Xerox Print Services: Your out-of-the-box MPS

Research indicates that Managed Print Services (MPS) help reduce print and copy costs by as much as 30%*, while improving the company’s overall document production capabilities. The challenge for many small to medium enterprises (SMEs), however, is the investment involved—making it difficult to adopt the solution.

Introducing Xerox Print Services (XPS), a single comprehensive solution formulated especially for SMEs, allowing them to enjoy the benefits of MPS with support, investments, and resources suited perfectly to their operations.

A STREAMLINED APPROACH THAT WORKS
Our proven approach delivers accelerated deployment. From your initial meeting with an XPS Specialist to the design and implementation, the solution can all be accomplished in less than a month.

IMPROVED PRINT MANAGEMENT
By optimising your printer devices, you can better automate your operations and infrastructure. This eliminates time wasted on routine jobs, and allows your team to focus on growth and strategy.

ACTIONABLE REPORTS AND METRICS
Easily manage print activity with summary reports and metrics that help you identify bottlenecks and cost intensive processes, giving you better visibility of your business operations.

PROACTIVE MONITORING AND 24/7 SUPPORT
XPS takes charge of your print infrastructure with centralised monitoring, along with end-user support, training and communications.

* Gartner Research, 2017.
Our Proven Methodology

Leveraging more than 20 years of delivering document and print-related services, we have come to understand your unique MPS needs and the best way to deliver these solutions. It begins with a meeting with your XPS account manager, a single point of contact throughout the process, who will guide you through all the steps from contract development to planning and deployment.

How Xerox Print Services Works with You

1. **Assess**
   - We will provide an insightful assessment of your current print infrastructure, identify opportunities to consolidate your assets, and establish total cost of ownership.

2. **Design**
   - Our XPS technical team will design plans to improve print management and enhance service capabilities for your business. This includes managing your existing non-Fuji Xerox assets.

3. **Implement**
   - Employing XPS best practices, we will implement the agreed design and support your staff throughout the transition process.

4. **Manage**
   - Using an integrated suite of tools and processes, our XPS service desk will manage, monitor, and maintain all your print devices and services, which will include:
     - Auto Supplies and Meter Reads
     - Proactive Remote Monitoring
     - Standard Reporting
     - Consolidated Invoices/Billing

Our Strengths Make You Stronger

- More than 2,500 Client Sites Serviced (sites with unique addresses) from SMEs to Multinational Companies
- Over 89,000 service operation professionals worldwide

A Consistent Level of Quality

We bring our expertise in print technology and system integration to the table, ensuring that our services are delivered with the highest quality.

With Xerox Print Services, you can tap our fleet of trusted multifunction devices, opening up a wide range of capabilities and specifications ready to meet the changing needs of SMEs.
